

FREESTANDING BATH INSTALLATION INSTRUCTIONS

PLEASE READ CAREFULLY AS NOT ALL BATH INSTRUCTIONS ARE THE SAME

STEP 1 Prior to installation, check thoroughly for defects

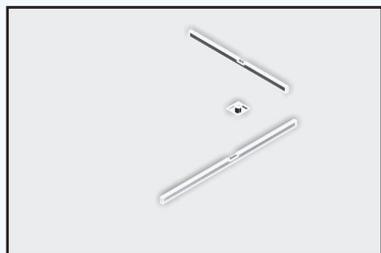

- STEP 2**
- Ensure that the product has no chips and is not cracked, this includes the waste outlet area.
 - Ensure that all visible surfaces are free from scratches.
 - Ensure that there is no twisting or distorting of the product.
 - Ensure the bath suitably drains water when levelled.
 - Ensure area where bath is to sit is level and has adequate support.

These checks are essential prior to installation as the manufacturer has no control over storage, transportation and delivery once it leaves the Oceano warehouse.

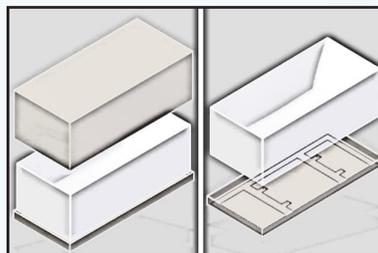

The manufacturer will not be held responsible for removal or replacement cost of a bath as a result of the bath having a defect, if said defect was identifiable prior to installation.

INSTALLATION OF THE BATH WILL BE TREATED AS ACCEPTANCE OF QUALITY

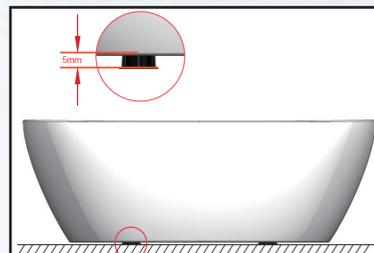

Water temperature must not exceed 50°C as this may cause damage to the bath surface.

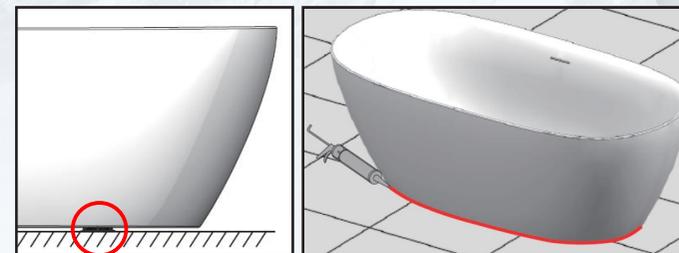

Step 1
Ensure area where bath sits is level.

Step 2
Carefully removed bath from box. Fully inspect bath before commencing installation. Once installed no claims for scratches or chips will be accepted.

Step 3
Check bath for level, if required adjust feet to ensure bath is level in both directions, leave a 5mm gap between the floor and the bottom of bath. Bath MUST sit on feet not the bath skirt.

Step 4
Apply a generous bead of silicone to the underside of each foot support. Reposition bath, re-checked levels run a continuous bead of silicone between the bottom of the bath and the floor. Allow 24 hours for silicone to cure before using bath.
